1. The staff of a new Air Force division, designated as the 7 Air Force Division, has been formed at the Zemun Airfield. At the present time, the division consists of a single complete regiment, namely, the 417 regiment, and 2 unidentified squadrons. Each of the 2 squadrons is equipped with 4 fighter planes. However, plans have been made to equip the entire division with S-49¹ and Trojka² planes of Yugoslav manufacture. These planes are still under construction.
2. Reportedly, by 10 August of this year, 26 planes will be delivered by Yugoslav factories to the new 7 Air Force Division at Zemun Airfield. According to plan, two additional squadrons of S-49 and Trojka aircraft are expected to be completed by 1 September 1951. Allegedly, reserve planes for the division are expected to be ready by the end of 1951, so that the 7 Air Force should be fully equipped by 1 January 1952.
